

DO YOU KNOW 'SQUATCH? This guy does...

THE SASQUATCH TRACKER

>> **MICHAEL C. THOMPSON**

“... A private and independent researcher currently concentrating his search and investigation of Boreal Sasquatch and marked hominids in the northern frontier of Alaska...”

>> **The Sasquatch of Alaska. THOMPSON KNOWS THEM & KNOWS THEM WELL.**

MICHAEL C. THOMPSON

He is the Sasquatch Tracker. He is a seasoned cryptozoologist with over 30 years of research in Idaho and Alaska.

Michael was heavily influenced by the Sasquatch and Bigfoot themed Hollywood movies during the 1970s. This helped shape his growth and passion, from the early days of fumbling in the

field to the veteran investigator he has become.

His experience includes countless hours of studying reports and encounters, field research, and work as a tracker. Through his experience, education and training, Michael has developed a meticulous approach to conducting research and a keen sense in sniffing out hoaxes.

Michael founded SasquatchTracker.com in 2005 and maintains the most comprehensive and up to date database for the state of Alaska. He is considered the Alaska authority on Sasquatch.

Michael holds a MA degree with honors, in Archaeology and Heritage, and a MS degree in Law Enforcement. He has lived with his family in rural Alaska for over 20 years.
